Art Düsseldorf announces list of exhibitors for April 2022

The fourth edition of Art Düsseldorf will take place from April 8 to 10, 2022, at the Areal Böhler and will position itself as a driver of innovation in the art world with an expansive digital tool.

SPECTRUM OF PARTICIPATING GALLERIES

With 85 galleries from Germany and abroad – and a total of 26 of them showing at Art Düsseldorf for the first time – the fair offers a cross-section of current trends in international art production and also presents outstanding positions in recent art history. The regional anchoring is confirmed again this year with 26 galleries from the Rhineland. The nationwide resonance of Art Düsseldorf reflects the strong field of participants from Berlin, Munich, Frankfurt am Main, Hamburg, and Leipzig. In addition to numerous galleries from Austria, participants from Switzerland, Denmark, Italy, the Netherlands, Luxembourg, and Spain are represented, and selected global players from New York, Paris, and Istanbul are present.

THE ART FAIR EXPERIENCE LIVE & DIGITAL

Art Düsseldorf enables a sublime art experience by presenting the artworks in halls flooded with daylight and enhanced by the industrial character of the Areal Böhler. Of the 85 participants, 10 galleries have combined forces to form joint stands and accentuate the already spatially generous exhibition parcours with unusual stand solutions. Once again, the sculpture squares are a major highlight of the fair, with works by the galleries Max Mayer, Michael Haas, Konrad Fischer, and Christian Lethert occupying these spaces for our fourth edition of the fair.

For the first time ever, Art Düsseldorf has expanded past the physical elements of the fair to create a unique digital experience that features an online magazine full of content crafted for the fair, digital tours of this year's selection of pieces, and buying advice that interested collectors can book online. To complete our digital experience, an online marketplace has been built from the ground up so that all works exhibited at the fair are also available in our online store. With the online magazine, we are providing inspiring content on the participating galleries, artists and their works; discourse of the art world; and introductions to the artists, collectors, and mediators present at this year's edition of the fair. With our digital presence, we'll be facilitating lively discussions of current topics within the art world through both interviews and panels.

The fourth ART DÜSSELDORF is part of NEUSTART KULTUR - the federal government's economic stimulus program for culture and media.
